Hello GDG on Campus Organizers 🚀

As we prepare for the **January 20th pilot launch of our Gen AI course pathway cohorts**, many questions have arisen. Please follow the steps below to get registered:

1. **All** interested GDG members must create a GCSB account with their university alias.*
2. Share the [Career Launchpad application](#) with your faculty advisor.
 - a. This [Filling the Application Guide](#) will assist them with the process.
 - b. Please allow 7-10 days for your cohort to be registered.
 - c. If you wish to be added as an admin to your faculty's cohort, please email erickabrown@google.com with your name and your faculty advisor's name and email.
3. Once access is granted, your faculty advisor will receive a welcome email titled, "*You've been accepted to the Google Cloud Career Launchpad program!*". The email will include the following resources:
 - a. [Group Admin Guide](#) (to be used by GDG cohort organizers and faculty members)
 - b. [Student Guide](#) (to be shared with GDG members who are joining your cohort)
4. The admin(s) can then add student emails to the cohort.
 - a. *Note: Students must already have a GCSB account created to be added to the cohort.

Please review this [FAQ document](#) for any additional questions. We are very excited for this launch!

Please ensure to register by January 20th

All Program Resources

- [GC Career Launchpad program website](#)
- [Career Launchpad application](#) (must be completed by a faculty member)
- [Filling the Application - Career Launchpad Cohort](#) (must be completed by a faculty member)
- [One Pager](#) (US Only) + [Program Deck](#) (US Only)

GCSB Resources

- [Group Admin Guide](#) (used by GDG cohort organizers and faculty member)
- [Student Guide](#) (share with GDG members that are joining your cohort)

GenAI Courses

- [Introduction to Generative AI](#)
- [Gemini for Google Cloud](#)
- [Generative AI for Developers](#)

Thanks!
